## Wisdom of the primary school

School makes you brainy

Like a fish finger.

Reading is a conjuring trick

Proper magic.

Assemblies are like

Giant sleep overs in a big room.

A tyrannosaurus rex reminds me

Of a certain dinner lady.

Learning times tables is like

Walking on skulls.

When the work is difficult

It is a tunnel of cob webs.

Playing with a skipping rope

Opens a world of possibilities.

When the playground grass is mown

Let there be heavenly battles.
