

Litter Picker

I love to go kayaking
It's the best day of the week
I put on my blue waterproofs
And hope that they don't leak

I love to see the wildlife
Duck, swan and even a turtle
I was very surprised to see her
I think I'll call her Myrtle

I saw a Graylag Goose
We gave him the name Boris
His wife is an albino
She is now called Doris

Sometimes when out paddling
I get extremely sad
Because of all the litter
Which is really very bad

I get into my Kayak
I find lots of old tin
I paddled back to the wall
And I put it all in the bin

If everybody just helped
To get rid of all the plastic
We could save the wildlife
And that would be fantastic

I love to go kayaking
It really is great fun
Especially in nice **clean** water
And brilliant golden sun
